

# JRVR SMARTPHONE INSTRUCTIONS

- 1** From our website, tap on the *JRVR Button*.
- 2** In the *Doll's House* view, use the arrows to move around and see the property from different angles. Tap an area of the *Doll's House* and you will be taken to that room.
- 3** There are also thumbnails at the bottom of the screen for each room. Tapping on these will take you directly to that room.
- 4** *View Points* appear as white circles on the floor of the property. Tap on these to move to this point. To look around a room, touch and drag on your screen in any direction. You can also navigate through a property by tapping on any area to move.
- 5** External views are 360-degree photos. Here you can touch and drag on your screen in any direction to view.
- 6** To view a brief, automatic tour of the house, tap the *Play Button* at the bottom of the screen.
- 7** In the top right corner of the screen is a *Goggles* icon. If you tap this you will be asked to place your phone into a VR headset or Google cardboard setup. Please refer to the **JRVR Goggles Instructions PDF** for further details.
- 8** When using your smartphone you can save your favourite searches by downloading and using the *Matterport VR* app, available in the Apple Store.
